Project:

1. Balay Mangyan/ Lying-in Clinic

Community Profile:

There are no roads, no electricity and no health facilities in Sitio Dyangdang, Bansud, Oriental Mindoro. This mountainous community is home to a peaceful Mangyan tribe. Last 2009, we did the award-winning documentary "Ambulansyang De Paa" where we showed how the Mangyan people in Sitio Dyangdang struggle to rise above poverty. We saw how people had to carry their sick in hammocks,

how people died because of lack of medicine, how children struggle to study in the dark, and how the Mangyan people through bayanihan are able to make ends meet.

Kara first visited the remote Sitio Dyangdang in Brgy Conrazon Bansud Mindoro Oriental in 2009 for the documentary "Ambulansyang de Paa". During that time, many mangyans especially women die because of lack of access to health facilities. Many mothers die along the 4-8 hour trek due to hemorrhage or complications with birth.

A lot has changed since then. The local government thru Mayor Morada has spearheaded the building of a hospital in Bansud. They also built a culture sensitive lying in clinic/health center especially for the Mangyan tribe, and because of this, maternal deaths have been greatly reduced.
